Campsite Map

North Hero State Park

Welcome to North Hero State Park. Land for this 399-acre park was purchased in 1963. Nearly one-third of the land area lies below 100 feet in elevation. Lake Champlain normally fluctuates from about 95 to 101 feet above sea level, subjecting much of the park to seasonal inundation. The forest type in the floodplain area is uncommon in Vermont, found only around Lake Champlain. The lakeside floodplain forest at North Hero is noted for its size, relatively undisturbed condition and the valuable wildlife habitat it provides.

Wildlife habitat improvements at North Hero State Park have yielded tangible results. White-tailed deer are common, as are a variety of migratory waterfowl - mallards, black and wood ducks nest in the wooded wetlands. Ruffed grouse and American woodcock find suitable breeding and nesting habitat here as well. Even fish - chain pickerel and northern pike - spawn and feed in the flooded areas. Map turtles, as well as other turtle species, nest along the beach. A section of the beach is roped off during nesting season so as to not disturb the turtles.

Camping

Camping is available on a limited number of campsites in the first loop of the park. Portable toilets and drinking water are available in the camping loop. Self registration is available at the park office when staff is not present. Camping is allowed only at numbered sites in the designated area. Two campsites are made available exclusively for paddlers in a

separate area. Please speak to staff about reserving these sites.

Recreating and Sightseeing in the Area:

Grand Isle

- Grand Isle State Park
- The Hyde Log Cabin State Historic Site
- Grand Isle State Fish Culture Station

Swanton

- Missisquoi National Wildlife Refuge

Isle LaMotte

- St. Anne's Shrine
- ancient coral reef

North Hero

- Knight Point State Park

Milton

- Sand Bar State Park

Alburgh

- Alburgh Dunes State Park
- Lake Champlain Bikeways
